

Ironman

Information: Ironman is formulated for soil, fertigation and foliar applications on high or low ph soils to prevent or correct nutrient deficiencies and supply nitrogen. This product aids in plant growth and reduces plant stress from nutrient deficiencies. Used as directed and in conjunction with a proper soil program for your soil types will result in increased vigor, superior plant quality and improved color.

Directions for use: Ironman is recommended for soil, foliar and fertigation applications. While no compatibility problems are known or have been reported, it is always best to test using a "jar compatibility" test prior to mixing with other fertilizers, pesticides or fungicides.

Application Rates: Ironman is designed to be used as a nitrogen adjustment product where soil applied nitrogen has been lost due to excessive rainfall. Ironman applied at 1-5 gallons to the acre in 50 gallons of spray solution has proved effective in turning the crop around and supplying supplemental nitrogen. If using a with a contact or MH-30 application, limit rate to 1 gallon/acre.

Cautions: Avoid getting in eyes, mucous membranes or on skin. Use with adequate ventilation. Keep containers capped when not in use. Keep away from children. Do not contaminate water supplies. Avoid contact with wood, painted surfaces, concrete and other surfaces as staining may occur

THE SELLERS LIABILITY ON THIS WARRANTY IS LIMITED IN AMOUNT TO THE PURCHASE PRICE ON THE PRODUCT. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSES OR IMPLIED, INCLUDING WARRANTIES OF MERHANTABILITY AND FITNESS FOR A PARTICULAR PUPOSE. THERE ARE NO WARRANTIES THAT EXTEND BEYONE THIS STATEMENT

GUARANTEED ANALYSIS:
Nitrogen(N).....20%
Iron(Fe).....0.5%
Sulfer(S).....0.3%
Nutrients derived from Ferrous Sulfate (FeSO4) and Urea solution
