

# Moly-ron<sup>®</sup>

**RECOMMENDATION FOR USE:** Moly-ron is recommended as a foliar or soil applied fertilizer for use of any food or fiber crop where the addition of one or more nutrients contained in Moly-ron would be beneficial. For best results, follow good agronomic practices, soil test and if necessary use tissue analysis. While no compatibility problems are known or have been reported, it is always best to test using a "jar compatibility" test prior to mixing with other fertilizers, pesticides or fungicides.

**FOLIAR APPLICATION:** Use 1-2 quarts per acre prior to or immediately after deficiency symptoms occur to prevent or alleviate losses from nutrient deficiency.

**SOIL APPLICATION:** Apply 1-2 quarts per acre as a starter fertilizer in a balanced fertility program.

**CAUTIONS:** Avoid getting in eyes, mucous membranes or on skin. Use with adequate ventilation. Keep containers capped when not in use. Keep away from children Do no contaminate water supplies. Avoid contact with wood, painted surfaces, concrete and other surfaces as staining may occur.

**Conditions of sale:** Seller warrants that products will be labeled as required under state and feral law and the products conform to the label description.
